

We are looking for you as an

## Employee (m / w) Industrial Engineering

with KATHREIN Sachsen GmbH | Mühlau

### **Our mission: to actively help shape the inter-connected world of the future**

KATHREIN Sachsen GmbH is part of the international KATHREIN Group and a renowned and rapidly growing company in the field of communication technology. Long-term experience and powerful innovation in developing and producing electronic components, assemblies and equipment in the field of high frequency technology will continue to guarantee the outstanding position of our company. By making use of advanced technologies, we have made sure that our products stand for the highest degree of precision and internationally acclaimed quality.

### > Your tasks

- Supporting and improving existing manufacturing processes and technologies in the area of electronic flat module production
- Safeguarding and continuous improvement of process reliability, in particular soldering processes
- Planning and procuring production-related operating resources
- Planning, organizing and monitoring maintenance and repair work (TPM)

### > Your profile

- Successfully completed vocational training in electronics, ideally a further training as a technician (electrical engineering)
- Several years of work experience in the field of process optimization and support of manufacturing processes
- In-depth knowledge of various soldering methods
- An independent, responsible and goal-oriented way of working as well as a high degree of problem solving, innovation and team ability complete your profile

### **What you can expect from us**

We offer a job with exciting challenges in a diverse and innovative environment.

You can expect us to provide you with a distinctive information and communication culture, a modern ERP-supported work environment, and attractive remuneration in line with your responsibilities. In addition, we offer bespoke further education programmes, additional social benefits, and access to our company health management system.

### **Would you like to help us shape the inter-connected world of the future?**

If so, then we would love to receive your application supported by the usual documents, preferably by e-mail, at the following address:
