

We are looking for you as a

## Software Developer (m/f)

with KATHREIN Sachsen GmbH | Mühlau

### **Our mission: to actively help shape the inter-connected world of the future**

KATHREIN Sachsen GmbH is part of the international KATHREIN Group and a renowned and rapidly growing company in the field of communication technology. Long-term experience and powerful innovation in developing and producing electronic components, assemblies and equipment in the field of high frequency technology will continue to guarantee the outstanding position of our company. By making use of advanced technologies, we have made sure that our products stand for the highest degree of precision and internationally acclaimed quality.

### > Your tasks

- Development and programming of software for our high-frequency electronic products as well as extension and maintenance of the existing software
- Development of embedded software for identification and localization technologies such as our RFID product range
- Development of algorithms for efficient hardware use
- Carrying out software tests to check and test the developed software
- Accompaniment of development processes from project start to series production of our products

### > Your profile

- A successfully completed university degree in electrical engineering, information technology, communications engineering or computer engineering or a comparable degree
- Knowledge in the programming languages C, C++ as well as in the operating systems MS Windows and Linux
- First experiences in embedded Linux driver development
- Good knowledge in the area of software security
- Experienced use of version management tools such as Git and CVS
- An independent, responsible and goal-oriented way of working

### **What you can expect from us**

We offer a job with exciting challenges in a diverse and innovative environment.

You can expect us to provide you with a distinctive information and communication culture, a modern ERP-supported work environment, and attractive remuneration in line with your responsibilities. In addition, we offer bespoke further education programmes, additional social benefits, and access to our company health management system.

### **Would you like to help us shape the inter-connected world of the future?**

If so, then we would love to receive your application supported by the usual documents, preferably by e-mail, at the following address:
