

We offer a combined Bachelor degree course in

Industrial Production - Production Engineering

with KATHREIN Sachsen GmbH | Mühlau - in cooperation with the University of Cooperative Education Glauchau

Our mission: to actively help shape the inter-connected world of the future

KATHREIN Sachsen GmbH is part of the international KATHREIN Group and a renowned and rapidly growing company in the field of communication technology. Long-term experience and powerful innovation in developing and producing electronic components, assemblies and equipment in the field of high frequency technology will continue to guarantee the outstanding position of our company. By making use of advanced technologies, we have made sure that our products stand for the highest degree of precision and internationally acclaimed quality.

> Course contents

- Teaching scientific and mathematical subjects as well as knowledge of mechanical engineering
- Learning industrial engineering methods to plan, design and optimize corporate performance processes
- Improving the efficiency/productivity of these processes
- During periods of practical training students work in different departments along the entire value creation chain (e.g. project management, LEAN management, industrial engineering, production planning and control, quality management)
- Project assignments during practical training

> Your profile

- A-level (minimum grade GOOD)
- Above-average performance in physics, mathematics and english
- Understanding complex technical and physical processes
- Very good spatial sense
- Determination, stamina and willingness to learn
- Team and communication skills
- Reliability and flexibility

Curriculum, duration and things to know

The duration of study is three years and is divided into alternating phases of theory and practice. Theoretical lessons are taught at the University of Cooperative Education Glauchau. Training allowances are also regularly paid during this theoretical part of the course. Upon defence of the degree thesis you will be awarded the title of a Bachelor of Engineering (B.Eng.). This degree is equivalent and legally equal to a degree acquired at a university or a university of applied sciences.
