

We are looking for a

## Working Student (m/f) software development

with KATHREIN Sachsen GmbH | Mühlau

### Our mission: to actively help shape the inter-connected world of the future

KATHREIN Sachsen GmbH is part of the international KATHREIN Group and a renowned and rapidly growing company in the field of communication technology. Long-term experience and powerful innovation in developing and producing electronic components, assemblies and equipment in the field of high frequency technology will continue to guarantee the outstanding position of our company. By making use of advanced technologies, we have made sure that our products stand for the highest degree of precision and internationally acclaimed quality.

### > Your tasks

- Planning and development of a software environment
- Further development of existing software environments
- Programming the test software in .NET C #
- Working with existing databases (SQL)
- Implementation of cross-departmental software development projects

### > Your profile

- Student in a technical discipline, preferably Information Technology, Computer Engineering or Business Informatics
- Good knowledge in Microsoft .NET Framework, C #, SQL and ASP .NET
- Knowledge of web interface programming
- Basic knowledge in the value added process of an industrial company
- Ability to quickly familiarize with existing program
- Independent and goal-oriented way of working

### What you can expect from us

We offer a job with exciting challenges in a diverse and innovative environment.

You can expect us to provide you with a distinctive information and communication culture, a modern ERP-supported work environment, and attractive remuneration in line with your responsibilities. In addition, we offer bespoke further education programmes, additional social benefits, and access to our company health management system.

### Would you like to help us shape the inter-connected world of the future?

If so, then we would love to receive your application supported by the usual documents, preferably by e-mail, at the following address:
