

We offer an apprenticeship as an

Merchant for digitalization management (m/f/d)

with KATHREIN Sachsen GmbH | Mühlau

Can you push boundaries every day? Kathrein can. Together with you as an apprentice.

KATHREIN Sachsen GmbH is member of the Kathrein Group, a leading specialist in reliable, first-class communication equipment which operates on a global scale. The company based in Mühlau has long-term experience and provides high-performance innovations in the development and production of electronic components, modules and devices in the field of high-frequency technology. Our products are internationally regarded as the embodiment of high quality and precision.

► Your tasks

- Getting to know, analyzing and optimizing all business processes
- Planning, adaptation and introduction of IT systems
- Project management in commercial, technical and organisational terms
- Acquire in-depth knowledge in the creation and implementation of application solutions, taking into account technical and economic aspects
- Acquisition of comprehensive knowledge in user training and consulting
- Management and coordination of IT systems
- Demand-oriented procurement of required hardware and software

► Your profile

- O-level or A-level
- Good grades in Mathematics, German, English and Computer Science
- Enjoy working on the PC and with MS Office
- Interest in information technologies as well as technical contexts and commercial processes
- Good social skills and communication talent
- Team spirit, fairness and respect in dealing with other people
- Initiative and willingness to assume responsibility
- Commitment and endurance

► Duration of apprenticeship

- 3 years

Reliable, humane, responsible: at Kathrein these corporate values are also deeply rooted when it comes to apprenticeship and are implemented on a daily basis. Together with you we want to push boundaries and pursue our mission to play an active part in helping shape the connected world, expand it, and make it better and more effective through innovations. Get involved and be a part of this mission.

Wishing to help shape the connected world of tomorrow?

Then send your detailed application, preferably by email, to:
